Domin8

Whether you like to dominate your partner or be dominated yourself...here is the perfect game to play.

Have you always wondered how it would feel to be restrained and left completely at the mercy of your lover? Or maybe the idea of taking full control of your partner fills you with a burning excitement?

Domin8 has turned an innocent suggestion of dominoes into an erotically charged game filled with Dominant and Submissive fantasies to fulfil.

Domin8 is packed full with erotic and kinky scenarios that will entice you both into a world of Dominant and Submissive play, where boundaries can be pushed and fetishes relished. Let the scenarios lead you both into experiences that only your imaginations can create.

If you enjoy playing with both roles your *Domin8 You* or *Domin8 Me* cards give you the power to switch control with your partner; not only making Domin8 match your mood for that day but also encouraging you to play with role reversal, and relinquishing all control to the one you love and trust.

Whilst competing to win the decision of who will play the Dominant and Submissive roles in the final scenario at the end of the game, if a double domino is played a naughty treat for each symbol must be enjoyed immediately.
