- ***LASTS APPROX 20MINS***

HOW DOES POWERECT CREAM WORK?

POWERECT can help enhance nitric oxide levels during sexual activity. Nitric Oxide is a powerful vasodilator that relaxes blood vessel walls & improves arterial elasticity for improved blood circulation. In combination with many other traditionally efficacious ingredients, it can be particularly effective in boosting male performance, enjoyment, faster recovery and help with overall confidence.

HOW TO USE POWERECTTM

- Extremely concentrated.
- Apply a small amount (Peasize).
- Initially only apply to the shaft, not the head and balls.
- Both partners should try this alone
- Once you have found your comfort level experiment by applying cream to the other areas of your penis, such as the head and balls.

- Once applied users will feel an instant sensation. This gives reassurance that Powerect is working.
- Sensations will begin to intensify over time.
- Everyone is different, so users may need less than they think to feel the effects.
- As you have both tried it alone now experiment with each other

- Effects last approx. 20 minutes per application.
- Because the cream is 100% natural it can be re-applied as and when users wish for longer results.
- Repeat usage will enhance the feeling over time (anecdotal feedback from consumers).
- The more you use Powerect the more you will benefit from the sensations it delivers.

How to apply Powerect

Important: For Powerect to work (as with any product of this kind), you must be sexually aroused first.

It is important to feel comfortable and familiar with the sensations Powerect delivers before you share the experience with your partner. Therefore, we recommend you try Powerect on your own first.

Powerect is an extremely concentrated formula, therefore we recommend applying a very small amount of the cream to begin with.

Apply it directly to the **shaft** of the stimulated penis first – **We recommend not to** use it on the head or the balls of the penis at this stage.

Please **do not** use the whole sachet immediately but gradually increase the amount over 2-3 applications as you start to feel more comfortable and familiar with the sensation.

Once you have found your comfort level, you can experiment by applying the cream to other areas of your penis, such as the head and balls.

Once applied, you will feel an instant sensation providing reassurance that the product is working. When you feel this, massage the cream into your skin and the sensations will begin to intensify over time. Everyone is different so you may need more or less than you think for it to take effect.

Once you feel confident to introduce Powerect during sexual encounters with your partner, please ensure you have massaged in the cream sufficiently. Some users prefer to apply then wipe off any excess amount from the surface.

Repeat usage will enhance the feeling over time, therefore the more you use Powerect, the more you will benefit from the sensations it delivers. It's all about exploring how this product works best for you and the difference it makes to your pleasure, so take your time to get to know the product.

Effects last approximately 20 minutes per application. However, the cream can be re-applied as and when you wish for longer sessions.

Fast Acting

Perform with Confidence

Enjoy Peak Performance

Faster Recovery

Ingredients

- Pomegranate Extract
- Catuaba Bark Extract
- Rosemary Leaf Extract
- Maca Extract
- L-Arginine
- Muirg Puama Extract
- Ginseng Root Extract
- Aloe Vera Extract

MALE INTIMATE CREAM FOR MEN

FREQUENTLY ASKED QUESTIONS

**Q. How does Powerect feel for my partner?
Is there any transference?**

A. Powerect is fast absorbing so has very little transference if left to absorb into the skin, however Powerect actually provides a pleasant tingle for partners whether it be vaginal, anal or oral sex. Please wipe off any excess that you have left on your Penis should you feel this is required.

Q. How many uses of Powerect do I get in a sachet?

A. Powerect is a concentrated formula therefore goes a long way. Depending on sensitivity, a 5ml sachet may contain 1-3 uses, perfect to try Powerect out on your own first and then with your partner.

Q. Is this a natural product?

A. Yes 100% natural

Q. What happens if I go out for an evening (if you know what I mean?) can I use Powerect?

A. Yes you can use Skins Powerect after any kind of night out and still have the confidence to perform and enjoy sexual performance for both you and your partner.

Q. Are there any studies on the products?

A. There are purity studies on every single ingredient in Skins Powerect.

This booklet is for retail staff / shop clerks training purposes only, and is not to be used by the end consumer.
